

### Stackable steel container

The Goodpack MB7 is a multimodal container intended for use in transport and storage of payloads of the foodstuff and chemical industries. It is suitable for liquids, pastes, bales and solids.

The MB7 is a galvanized steel container, which can be stacked both empty and laden, as well as collapsed when empty. The construction ensures efficient protection against shocks, rough handling and contamination. The MB7 is safe, easy and quick to both assemble and disassemble by a single individual.

The MB7 offers easy handling with 4-way forklift entry and a rugged build.

### Goodpack Stackable Steel Container

#### Product highlights:

- Maximum payload 1,500 kg (3,306 lb)
- Removable sidewall
- Laden five high stacking in warehouse
- 14 laden MB7's fit in a 20 ft ISO container

#### General Goodpack container features and benefits:

- Returnable and reusable
  - Rugged and robust patented design
  - Safe in operation
  - Easy to handle - no tools required
  - Frame made of galvanized steel
  - Capable of carrying a wide range of payloads
  - Good protection against contamination
  - Size-optimized for ISO container transport
  - Equipped with RFID tag for tracking purposes
  - Available globally\*
- \* subject to compliance with applicable trade restrictions (e.g., embargoes)

#### Technical Specifications:

Dimensions (external)	1,500 x 1,150 x 1,098 (mm, L x W x H)
Dimensions (internal)	1,472 x 1,090 x 1,020 (mm, L x W x H)
Dimensions (collapsed)	1,500 x 1,150 x 181 (mm, L x W x H)
Volume (internal)	1.63 m <sup>3</sup> (431 US gallon, 57.7 ft <sup>3</sup> )
Tare weight	135 ± 4 kg (298 ± 9 lb)
Maximum payload	1,500 kg (3,306 lb)
Forklift handling	4-way entry
Tracking	RFID tag (chip and bar code) and 2D serial number
Special features	removable sidewall
Stackable in warehouse*	5 (laden)
Max. weight on lowest container	6,600 kg (14,550 lb)
Stackable in transit*	2 (laden)
Quantity in 20 ft ISO**	14 (laden), 84 (collapsed)
Quantity in 40 ft ISO**	30 (laden), 180 (collapsed)
Quantity in 40 ft HC ISO**	30 (laden), 192 (collapsed)
Construction	all-welded steel frame with collapsible walls
Material	galvanized steel frame, Galvalume® sidewalls

\* subject to local regulations

\*\* subject to local weight and load restrictions
